

SimaPro PhD was designed for the LCA practitioner who needs advanced modelling and assessment features. It has everything you need to do your research. SimaPro PhD is single-user: only one person can work on the same database and project at a time. Visit simapro.com to compare different licences.

Advanced modelling

SimaPro PhD supports advanced modelling with process and project parameters, scenario analysis and uncertainty calculation with Monte Carlo simulation. Furthermore, you can gain insight into unit processes and the allocation of multiple output processes, conduct a weak-point analysis and model complex waste treatment systems.

Price

This licence is available as a one-year subscription or as a perpetual licence and includes a free one-year service contract and various databases. The prices include ecoinvent v5 database licence. If you want to have a licence without ecoinvent database, please contact us for a quote.

Scenarios with parameters

Build scenarios with process and project parameters. Using these parameters in your model simplifies your work and gives you the flexibility to easily change values or assumptions in your model.

Visualise results

SimaPro PhD has a powerful network view that will let you dig deep into your model and visualise your results. This way of presenting your results helps you easily find hotspots and investigate them further.

PhD licence

Experience the full potential:

-  **Collect** - optimised data collection
-  **Share** - creating and sharing scenarios
-  **Report Maker** - creating graphs and tables in MS Word and MS Excel

Features

- Analysis of Groups
- Import data (.csv and SimaPro format)
- Export data (xls and .txt format)
- Save inventory data as system processes
- Parameters (scenario analysis)
- Monte Carlo analysis
- Export data (.csv and SimaPro format)
- Import and export of EcoSpold data
- Library editing
- Move project data to library
- Edit system descriptions
- Library switch
- Tree view
- Export to matrix

- GST@18% extra or as applicable.
- Read and accept the [licence agreements](#) for SimaPro, ecoinvent and Agri-footprint before you order.
- If you want to upgrade to another SimaPro licence, please contact your reseller for a tailored quote.
- The price for a new SimaPro licence includes an ecoinvent v5 database licence and a free one-year service contract.
- Order additional years of service contract with your initial SimaPro order to profit from a discount up to 10%. This discount does not apply if you want to renew your service contract later on.
